Section C. General Information Items

#1 – Succession Planning (LOCCA President and PELT Committee Chairman)

As President Jack Kennedy said in his inaugural speech, “Let the word go forth from this time and place, to friend and foe alike, that the torch has been passed to a new generation of Americans” Well, your LOCCA President and PELT Committee Chairman would like to be able to say the same thing (realizing that there are no “foes” of LOCCA)! It is time for the torch of civic involvement and caring to pass to the next generation of Lake Ridge residents. Neither position requires unprecedented amounts of time or energy. But they do involve almost a passion for caring about what our community is and will be in the future. A reasonable estimate of time involved is approximately 20-25 hours per month for each position.

The President is the face of the Civic Association and generally attends meetings of the Planning Commission and Board of County Supervisors when projects are being heard that have been reviewed by LOCCA/PELT. The President also coordinates, as necessary, with other civic associations, Planning Commissioners, and our Supervisors.

The PELT Committee Chairman does much of the “grunt work” necessary to conduct meetings and learn about current projects. The Chairman typically is responsible for scheduling meeting locations, putting together the agenda for each meeting, maintaining the LOCCA web site (www.loccapeltva.org), and drafting letters (with the help of others) in response to projects reviewed at our meetings.

Should anyone be interested in seeking one of these positions or just have a question about what is involved, please feel free to contact either Jack Kooyoomjian at kjkooyoomjian01@verizon.net or (703) 505-7719 (cell) or Tom Burrell at tom.burrell@verizon.net or (703) 927-7580 (cell). Either of us would be happy to talk to you.

This checklist is used as a gauge to determine if the development being reviewed contains those features and design elements that embody community expectations of green building & LEED design, energy independence, "livability," "quality-of-life," historic preservation (including enhancement, tourism, and education), schools, parks, open space, trails, transportation connectivity, and functionally-oriented design concepts. It is not intended to be all-inclusive, but rather highlight those aspects of a development that, over the years, have come to signify the expectations of the community.
